

Position: AI Software Engineer

Company: FutureAI

Location: Remote

Description:

We are seeking an AI Software Engineer to join our team in building AI-powered applications.

The ideal candidate will have experience integrating machine learning models into production systems and working with modern technologies.

Responsibilities:

- Develop AI-based software solutions
- Deploy and monitor ML models in production
- Collaborate with front-end and back-end teams

Requirements:

- Strong Python programming skills
- Experience with machine learning frameworks (TensorFlow, PyTorch)
- Familiarity with cloud services (AWS, GCP)
- Good understanding of web development (React, Node.js)
